WORK-IN-PROGRESS

- The Game of Thorns: Empirically Analysing the Impact of Opium Cultivation on Terrorism within Afghanistan, 1994–2017.**

TEACHING AND MENTORING

- University of Oxford** Oxford, UK
Graduate Teaching Assistantship 01/2026 - **Present**
 - Economics for Economic Historians** 01/2026 - 03/2026
Teaching microeconomics, macroeconomics, and applied econometrics to Oxford MSc/MPhil students in Economic and Social History.
Hilary Term 2026 Feedback: Course: **4.55 / 5** (n = 33); Teaching: **4.45 / 5** (n = 33).
- RISE Research** Remote (Part-time)
Research Mentor 11/2025 - **Present**
 - Supervising students across India, the UAE, and the US on original economics research projects, guiding them from research design to publication-ready papers.

EXPERIENCE

- **World Bank Group (IFC)** Remote
Outcome Measurement Unit - Impact Performance Measurement Placement **02/2026 - 05/2026**
 - ESRC-funded placement with World Bank Group and University of Geneva researchers contributing to research on the \$4 trillion sustainable development financing gap; developed standardised impact measurement frameworks aligned with UN Sustainable Development Goals, evaluating metrics against pre-defined performance criteria.
 - Systematically compiled a corpus of academic papers across leading economics and finance journals using targeted climate-relevant JEL codes, combining direct journal filtering with structured EconLit searches; forming a reusable climate finance literature database.
 - Collected climate impact metrics from practitioner reports across DFI and asset manager signatories; developed a Python script to automate report downloading at scale and prepared a taxonomy document with per-signatory commentary and aggregate coverage analysis.
 - Evaluated LLM-assisted metric extraction across multiple model-prompt combinations (ChatGPT and Claude Sonnet variants) benchmarked against a Master List for hallucinations, misreporting, and omissions to inform the development of a validated climate impact metrics database.
 - Prepared comprehensive handover documentation for both the literature compilation and metric extraction workstreams, covering methodology, prompt definitions, model-prompt combinations, and error taxonomy to ensure knowledge retention and continuity for future researchers.
- **Data for Afghanistan** Remote (Part-time)
Director of Research **02/2025 - Present**
 - Collaborating with [Dr Ahmad Zia Wahdat](#) to compile comprehensive datasets and visualisations on Afghanistan - one of the world's most data-scarce, conflict-affected, and impoverished countries - for empirical research ([URL](#)).
- **UK Civil Service - Department for Work and Pensions** London, UK
*Fast Stream Economist **Post-DTA** (SEO-equivalent)* **09/2021 - 09/2023**
 - Selected for the flagship UK Civil Service Fast Stream graduate scheme from 56,667 applicants in 2019-20 (overall 2019-20 offer rate: 2.3%; Economics stream offer rate: 14.9%; [source](#)).
 - **Post 1: Contract Management & Partner Delivery Division (Finance Group)**
 - * Led two employment programme impact evaluations worth £1 billion using Propensity Score Matching on HMRC/DWP microdata, line managing a Statistician, with results informing ministerial policy decisions.
 - * Conducted real-time analyses using SAS and SQL, delivering accurate responses to ministerial briefings, Freedom of Information requests, and Parliamentary Questions under tight deadlines.
 - **Post 2: Working Age Modelling and Forecasting Division (Policy Group)**
 - * Contributed to the development, validation and successful launch of a department-critical agent-based dynamic microsimulation model in AnyLogic/Java covering ≈6 million Universal Credit claimants using billions of observations, integrating machine learning-derived model inputs and securing stakeholder approval for outputs.
 - * Applied advanced SAS programming (Enterprise Miner & Studio) to merge DWP datasets, optimising complex variable interactions and achieving significant runtime efficiency.
 - **Grade Manager for DWP Economist Placement Students (08/2022 - 09/2023)**
 - * As one of three Grade Managers, led end-to-end recruitment and assessment of placement economists across the Government Economic Service, coordinating with Chief Economists and HR whilst overseeing sifting, logistics, and assessment moderation.
 - * Provided pastoral and professional support to placement economists, coaching them through technical assessments and mock interviews in economic theory, introducing structured exit surveys, and adapting communication to diverse audiences, from senior leadership to volunteers and across technical and non-technical colleagues.

PRESENTATIONS
